

Our Mission

Sky Whirlies aims to be the global market leader in innovative helicopter toys stimulating the creativity of the young and young at heart.

NAME

WHIRLIES
The ultimate flying and fun experience

« My 2 boys and I learned how to build and fly with the SkyBuddy. We have bumped it into walls, ceiling and everything else in the house along the way. Guess what it still runs smoothly. We are regularly having to fight over who flies it next. I am definitely going to buy the SkyMate for my oldest soon and the SkyBeetle for myself as soon as it released! Can't wait for it»

Family Janssen –Belgium

Our Products:

The **SkyBuddy**, our ready-to-fly helicopter kit is a single blade indoor model. SkyBuddy is surprisingly fun to pilot and the perfect choice if you are just starting out.

The **SkyMate**, our double blades outdoor model brings together the best of so many hobbies, including modeling, video gaming and remote control helicopters. This remote control helicopter is controlled by your smartphone or tablet.

COMING SOON ! The **SkyBeetle**, our four blades quadcopter features 2 high definition camera, an ultrasound altimeter and a stabilizer. You will be able to perform barrel rolls, high speed turns, single-point hovering and other outstanding tricks. Let your imagination express and impress with your recorded video on Youtube.

The ultimate flying and fun experience :

Flying a remote control helicopter is an attractive hobby for the young and young at heart.

Finding the right remote control helicopter can be daunting.

Don't look any further !

Sky Whirlies brings to you the ultimate flying and fun experience with a choice of 3 robust and affordable ready-to-fly remote control helicopter kits.

Experience the fun of flying the SkyMate and SkyBeetle at our upcoming event in Leuven on the **24th of May** in the Vlerick Lounge (starting at 18:30)

In our Remote Control Helicopters :

We integrate state of the art technology.

We make RC helicopters for novice to experienced pilots.

Our helicopters are made to last. The robust structure is produced in Germany.

We produce affordable ready-to-fly kit, easy to assemble with the included instruction sheets.

We provide complementary accessories to enhance the experience.
